

3-IN-1 MULTI-PLIER

Our redesigned multi-plier replaces three of the most commonly-used pliers with one double-hinged mechanism. The double hinge multiplies the cutting leverage at the jaw.

You get three interchangeable carbon steel plier heads, induction-hardened for exceptional strength: long nose, diagonal cutting, and combination. Heads change easily with-out tools: unlock handles ...open fully...pull out head...insert new head...close handles.

Other features include precision-engineered cutting edges, spring-loaded PVC handles, rugged holster,

lifetime warranty on the mechanism, 3-year warranty on the heads.

ATL320 3-In-1 Multi-Plier with holster and three interchangeable heads.

LONG-NOSE PLIER

Our chrome-vanadium alloy long-nose plier comes with all the features of our diagonal-cutting plier, in a long-nose model.

Use anywhere a long-nose plier is needed, with the confidence of knowing that you can't work with a better-made tool.

ATL324 Long-Nose Plier with holster.

DIAGONAL-CUTTING PLIER

Our professional-quality diagonal-cutting plier boasts a precisely-honed cutting edge and a skinning slot for stripping wire. Includes a rugged holster.

Made from drop-forged chrome-vanadium alloy, this fine tool includes a crimper feature between the handles...an induction-hardened cutting edge...and a hot-riveted joint.

ATL325 Diagonal-Cutting Plier with holster.

All three specialty pliers come with a rugged, convenient holster that attaches to clothing or tool belt

ADJUSTABLE WRENCHES

With spans 18% wider than normal, the jaws of our adjustable wrenches feature a ridge design that catches different-size fasteners without stripping.

Precision joint mechanism has been engineered for smooth, no-wobble operation, and laser-etched gauges (inches on one side and millimeters on the other) give uncommon convenience and accuracy.

Industry-quality chrome-vanadium steel lends superior strength; streamlined handle with oversize grip improves tool balance and reduces hand fatigue.

ATL305 Adjustable 8" Wrench.

ATL306 Adjustable 10" Wrench.

ATL307 Adjustable 12" Wrench.

8-IN-1 MULTI-WRENCH

8-in-1 Multi Wrench gives you four different SAE wrench sizes at each end. Pack one of these instead of eight separate wrenches: $\frac{5}{16}$ ", $\frac{3}{8}$ ", $\frac{7}{16}$ ", $\frac{1}{2}$ ", $\frac{9}{16}$ ", $\frac{5}{8}$ ", $\frac{11}{16}$ ", and $\frac{3}{4}$ ". Chrome vanadium hardened steel shank. Soft comfort grip is 5" long. Overall length: $8\frac{3}{8}$ ".

ATL301 8-in-1 Multi-Wrench.

Heavy-Duty Slip-Joint Pliers

These big-muscled pliers feature a solid shaft that holds true under the tightest grip. Replaces the classic bolt-and-groove plier with a double-sided steel shank. This bolt-less, rivetless jaw mechanism can't slip or torque out.

The soft, non-slip grip provides extra space between the handles to protect fingers...even at full jaw extension.

Forged from industrial-strength chrome-vanadium steel for greatest possible strength; warranted for life.

ATL322 12" Slip-Joint Pliers.

ATL323 16" Slip-Joint Pliers.

10" & 14" Self-Adjusting Pipe Wrenches

Our tough Self-Adjusting Pipe Wrenches combine the convenience of a pivoting head and ratcheting tension adjustment. Grab the workpiece from almost any angle and tighten with one-hand ratcheting motion. 360° swivel head lets you apply leverage in tight spots.
