

### DOOR KEY VALUE PAK

Put every door key you'll ever need into your toolbox...and save significantly compared to the cost of buying them individually.

This seven-piece Value Pak includes keys for Dover, GAL, Otis, and Westinghouse. Helps you streamline every service route by equipping each mechanic for the unexpected.

**KVP840 Key Value Pak** opens doors to increased productivity.

### INSPECTION MIRROR

**Magnifying inspection mirror** lets installers check hard-to-see connections, contacts, and other obstructed-view components. 1 1/8"-dia. mirror is mounted at 45° angle to see around corners. Insulated handle; overall length = 6 3/8".

**A565. Inspection Mirror.**

### TELE-MIRROR LOCATOR TOOL

**Telescoping mirror** extends to 27 1/2" for locating items dropped behind or under obstacles...especially helpful when working on escalators.

**Mirror surface is 2 1/2" x 1 3/4"**. Non-slip black handle makes this tool easy to use.

**A722. Tele-Mirror locator tool.**

### TELE-MAG RETRIEVAL TOOL

**Telescoping magnetic retrieval tool** extends to 29" to help you retrieve small metal objects that have been dropped or rolled out of reach.

**Holds up to 6 lbs.**

**A723. Tele-Mag retrieval tool** with protective cap.

### GAL JUMPERS

Here are the tools mechanics need for jumping GAL doors during servicing.

**G30L3 "Tomahawk"** with MO jumper head and 10 1/2"L looped handle. Replaces GAL part no. INT-2-24 & INT-1-19.

**G30L2 Double-barrel** contact head.

**G30L1 Combination** MO jumper head does the job of both jumpers above; no handle.

### DOOR PRESSURE GAUGE

**Measures closing pressure** of elevator doors to help mechanics make adjustments without guesswork.

**TO USE:** Let door close about half way, and stall it with your foot. Hold gauge firmly against door...release foot...keep door from moving for 5-10 secs. Read closing pressure at location of O-ring. (Range: 0-35 lbs.)

**A568 Door Pressure Gauge** helps keep closing pressure within code.

### TELESCOPING LIGHTED PICKUP AND MIRROR KIT

**Pickup features bright white** LED light at the tip on a chrome-plated shaft that telescopes to 24". Super strong 5 lb. magnet is encased in a brass shield that directs the magnetic force to the tip - won't attract peripheral objects. Light turns off when not in use. Uses 3 type 357 button cell batteries (included). Mirror has a universal joint that adjusts to any angle, and a chrome-plated shaft that telescopes to 36", collapses to 8"; in fitted case.
