

RELAY PARTS		
Adams part no.	Description	Haughton part no.
J20C2	Short stationary contact for AN, AM & BN relays, ²⁹ / ₃₂ "L; silver-plated brass	3-20456-01, 20456-A
3-20456-01	Short stationary contact for AN, AM & BN relays, ²⁹ / ₃₂ "L; gold-plated brass	3-20456-01
3-20456-02	Stationary contact for AN, AM & BN relays, ⁵¹ / ₆₄ "L; gold-plated brass	3-20456-02
J20C3	Long stationary contact for AN, AM & BN relays, ⁶³ / ₆₄ "L; silver-plated brass	20456
J22B1	Contact bridge insulator for "4" 10062-series movable contact assemblies on AM, AN, BN & N relays	19487
J22B2	Contact bridge insulator for "2" 10062-series movable contact assemblies on AM, AN, BN & N relays	19486
J22C1	Adjustable stationary contact stud (standard duty) for AT, F & N relays; ¹³ / ₁₆ "L with ⁵ / ₁₆ " dia. silver contact, 6-32 threaded hex head screw; used with J20C1 contact bridge	17548
J22C2	Stationary contact stud for blowouts (heavy duty) for 35-0864-009 stationary contact & bracket ass'y. on AT relays; ¹³ / ₁₆ "L with ⁵ / ₁₆ " dia. silver contact, 6-32 threaded hex head screw; used with J22C3 contact bridge	3-17548-06, 17548-H
J22C3	Heavy duty bridge contact for AT & N relays; 1/4"L x 3/8"W with 2 3/8"-dia. silver contacts; also used with J831A1/A2 interlocks	3-28763-01, 28763-B
J22G1	Steel contact spring guide, ³ / ₈ " x ⁵ / ₁₆ " x ³ / ₁₆ " thick, with hole for 6-32 screw; used with J22G2 and J22G3 spring seat washers on 10062-series movable contact assemblies for AN, AT, F & N relays	28764
J22G2	Steel spring seat washer, ¹⁹ / ₃₂ " OD with ¹¹ / ₃₂ " x ¹³ / ₆₄ " rectangular hole; used with J20S1 spring and J22G1 spring guide in 10062-series movable contact assemblies	3-20696-02, 20696-B
J22G3	Steel spring seat washer, ¹⁹ / ₃₂ " OD with ⁵ / ₃₂ "-dia. hole; used with J20S1 spring and J22G1 spring guide in 10062-series movable contact assemblies	3-20696-01, 20696-A

SELECTOR PARTS		
Adams part no.	Description	Haughton part no.
J211	Movable contact, 1/4"L x 3/8"W offset base with 1/4"-dia. silver contact; for 10019 and 10019-M interlock assemblies on Type F, K & T contactors	3-18266-01, 18266-C
J212	Movable contact, 1/4"L x 3/8"W offset base with 3/8"-dia. silver contact; for 10019 and 10019-M interlock assemblies on Type F, K & T contactors	3-18266-02, 18266-E
J220	Movable copper contact, 1" x 1" face; for type F magnet switch	20429
J220C	Stationary carbon contact for J220 movable contact	21003
J221	Movable M.G. start contact w/blowout copper, 1/2"W: includes 3/8" x 1/2" silver contact	20386
J222	Same as J221, without blowout copper	3-20386-02, 20386-B
J223	Stationary/movable contact, 1/2" x 3/8" x 3/16"; incl. silver face and 2 holes tapped for 6-32 machine screw; used for type F magnet switch and M.G. copper	3-20387-02, 20387-B
J224	Stationary copper contact, 3/4" x 1/2" x 3/8"; silver face & 2 holes tapped for 10-24 machine screw	3-20397-00, 20397-B
J310	Movable contact, 17/16"L base with 3/8"-L contact surface; type 300 stainless steel, for type B, B-1, & B-2 Vernier and FA selectors	34-0725-005
J311	Same as J310, with 3/4"-L contact surface	3-20345-02, 20345-B
J320	Button-type selector contact, 15/16"L with 3/8"-dia. head and 3/8"-dia. silver contact; 10-24 thread; for type B, B-1, B-2, and FA selectors, and type K limit switch	3-16562-08, 16562-M
J321	Same as J320, 13/16"L	3-20310-01, 20310-A
