

ADAMS QUALITY BOBBIN-WOUND COILS

Adams stocks 2-, 3-, and 4-lead bobbin-wound replacement coils. Bobbins are green-colored glass-filled Lexan®, and conform faithfully to the appearance and physical dimensions of the Otis originals. Generally used in the Otis Type A6164BP DC Magnet Switches. (Coil no. **H5317** is also used with Otis Type 6993D3 and D4 safety edges.)

Shown below are some of the bobbin-wound coils we carry. Order from charts below.
