

HALL STATIONS WITH ROUND OR SQUARE BUTTONS

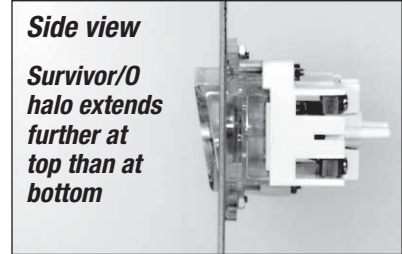

Survivor/O pushbutton assemblies are available mounted on hall station cover plates that match existing Otis plates.

Choose O486A-series round halos or O487A-series square halos; bronze or stainless finishes; formed or flat contours; terminal and intermediate configurations.

HALL STATION SELECTION TABLE

Round halos (1½" dia.)				Square halos (1¾" x 1¾")			
Adams part no.*	No. of buttons	Cover plate material	Plate contour	Adams part no.*	No. of buttons	Cover plate material	Plate contour
O486A1	1	Stainless	Formed†	O487A1	1	Stainless	Formed†
O486A2	2	Stainless	Formed†	O487A2	2	Stainless	Formed†
O486A3	1	Bronze	Formed†	O487A3	1	Bronze	Formed†
O486A4	2	Bronze	Formed†	O487A4	2	Bronze	Formed†
O486A5	1	Stainless	Flat	O487A5	1	Stainless	Flat
O486A6	2	Stainless	Flat	O487A6	2	Stainless	Flat
O486A7	1	Bronze	Flat	O487A7	1	Bronze	Flat
O486A8	2	Bronze	Flat	O487A8	2	Bronze	Flat
O486A-A	Pushbutton assembly only			O487A-A	Pushbutton assembly only		
O486E	Electronic module (order 1 module for each pushbutton)						
A487L9	Replacement lamp, ref. #24CSB, 24V, 0.017 amps						

*Each pushbutton features molded-in arrow; mount in UP or DOWN position or flip button base.
 †Formed plates attach with single screw at bottom rear of plate.

CAR PANEL BUTTON ASSEMBLIES, ROUND AND SQUARE HALOS AVAILABLE

Maintain the uniform look of Otis car panels by replacing worn or damaged pushbuttons with Survivor/O assemblies. Each Survivor/O button face matches Otis character height, stroke width, type style, and color.

O486A-[character] for round halo or O487A-[character] for square halo.

Survivor/O car buttons preserve your system's uniform look
