

Waterproof Grease. Our waterproof lubricating grease represents a new technology in wide-temperature, high-performance grease. In many applications, it outperforms high-temperature grease.

Contains no heavy metals, sulfur, phosphorus, chlorine, zinc, phenols, antimony, barium, or lead.

This calcium grease is designed for operation in wet or high-humidity conditions. It is suitable for lubricating bearings, bushings, rails, and open gears. Comes in 14-oz. cartridges for grease gun application.

APG702CTC Waterproof Lubricating Grease, ten 14-oz. cart./case.

APG700GG Grease gun for 14-oz. cartridges. Use w/**APG702CTC** Waterproof Lubricating Grease and **APG715CTC** All-Purpose Lubricating Grease. Order as many as you need. Grease Gun also available in Heavy Duty 10,000 psi. Order Part No. **APG700GGH**.

O-Ring Compound. Tacky material keeps O-rings in place during assembly. Apply sparingly by hand. Seal should be installed with coated side toward bottom of groove.

APG705TC O-Ring Compound, twelve 10-oz. tubes/case only.

All-Purpose Grease. Adams all-purpose grease is a lithium-based lubricating grease. It is formulated with the highest-quality base oils available, and is fortified with rust and oxidation inhibitors as well as extreme-pressure additives.

This versatile product has been manufactured to meet the multi-purpose needs of the elevator mechanic. Comes in 14-oz. cartridges for grease gun application.

APG715CTC All-Purpose Lubricating Grease, ten 14-oz. cart./case.

Wire Rope & Cable Lubricant is designed to clean, lubricate, and protect wire ropes and cables by removing dirt and reducing frictional forces. It aids in cleaning dirt, oil, and grease from surfaces. By removing accumulated dirt and oil, Wire Rope & Cable Lubricant reduces the abrasive wear among the wire rope strands.

Lubricant will not dry, and remains highly resistant to gum and varnish formation. The extremely low pour point eliminates oil coagulation at low ambient temperatures.

APG200GC Wire Rope & Cable Lubricant. 1-gal. btl, 4 gals/case.

Dash Pot Oil. Designed to lubricate and protect high-speed spindle bearings. Also used wherever an ISO 10 rust- and oxidation-inhibited hydraulic oil is specified.

Separates rapidly from water; hydrolytically stable. Provides excellent friction, filterability, rust and corrosion protection properties, as well as superior thermal & oxidative stability.

APO28BS Dash Pot Oil. 1-pint bottle.
