

Position Indicator Lenses, "Pop-In" Style

"POP-IN" P.I. LENSES

Replacement "pop-in" position indicator lenses are removed easily with our handy W459T lens removal tool, shown above.

Choose Gorton (W459G-series) or Helvetica (W459H-series). Order characters from table below. One black ferrule (W459F) required for each lens; order separately. Lens cap is included. (W459G-series replaces Westinghouse series 5213D27; W459H-series, 5213D26.)

Need a blank P.I. lens? Order part no. W459H-BL.

W454BC1. Clear cap only (as shown attached to lenses).

W459L. Lamp socket. Order one (1) for each lens. Use Adams miniature bayonet lamps A480L14 and A480L15, sold separately. Westinghouse 630B462H01.

W459T. P.I. lens extractor tool. Suction gripper makes short work out of removing lenses from the front. Eliminates time-consuming disassembly and reassembly of P.I. units. (Works best if lenses are dry and clean.) Replaces Westinghouse part no. 865A096H01.

W459F. Black ferrule with speed nut. Order one (1) for each lens. Replaces Westinghouse part no. 196C557H01.

W459W. P.I. lens without cap, white.
