

# HatchLatch® prevents life-threatening accidents by keeping elevator doors locked between landing zones

*HatchLatch lets you relax with the knowledge that even a rambunctious boy will be contained safely inside a stalled cab until help arrives*

**Meets  
A17.1 1996 Code  
(and later) for Door  
Restrictors**

HATCHLATCH KEEPS PASSENGERS SAFELY INSIDE THE CAB IN THE EVENT OF A STALL OR BREAKDOWN

## Why door restrictors? Because they can...

- **PREVENT LIFE-THREATING ACCIDENTS**

By restricting doors from being opened manually outside the leveling (landing) zone, *HatchLatch* makes it impossible for passengers to leave the cab.

Some of the most devastating accidents occur when riders pry open the door(s) of a stalled elevator and try to jump or lower themselves to the landing below. The margin for error is small... and even the slightest misstep can send a reckless passenger hurtling to the bottom of the hatchway.

- **REDUCE YOUR LIABILITY**

Our legal system recognizes that hatchway accidents are preventable with a device like *HatchLatch*. Offer it to your customers, and you will have met your legal obligation to provide the highest duty of care as prescribed by law. Install *HatchLatch*, and your customer will have met his.

**4-HOUR  
BATTERY BACK-UP**

### KEY FEATURES & BENEFITS

- The power supply with 4-hour battery back-up has plunger-sensing circuitry that alerts the mechanic when *HatchLatch* is disabled. That's four times longer than required.
- We've lengthened the photoeye cable to nine feet.
- You get 2"-wide reflector tape (not 1") plus a dust washer and handy connectors.
- HatchLatch is patented and CSA approved.
- HatchLatch works with any door operator.
