FOR IMMEDIATE RELEASE

Adams Releases Online Escalator Catalog

The Schindler 9300 Escalator Catalog includes images, part numbers and descriptions

The Adams Elevator Equipment Company recently released its new Web-enabled 9300 Escalator Catalog on its e-commerce site: shop.adamselevator.com. The online catalog contains parts and service information about the Schindler model No. 9300/9300AE escalator.

The catalog features approximately 250 of the most frequently ordered Model 9300 escalator service and maintenance parts. Visitors to the site can search for their requirements and compare against product images which are present for more than 90 percent of the parts in the catalog.

Visitors can search for parts by escalator “area” designations like drive, controls, steps and more. In addition to searching by type of part, users can also search for parts by partial part number or description. Additional search options are attainable through the advanced search drop-down criteria available in the online catalog.

About Adams Elevator
