

SLIM PACKAGE. MULTIPLE CONFIGURATIONS. **EXPANDED SAFETY.**

INTRODUCING THE COMPACT, EASILY PORTABLE SLIM SAFETY BARRIER

Trim down your maintenance operations with a more flexible, space-saving barrier. Available in the standard 42" height, the double-high 84" and the all-new 64" tall unit. Panel widths start at 16" wide and configurations cover 3 to 9 panels. Its lightweight, small carrying size make the Slim Safety Barrier from ADAMS ideal for today's downsized service vehicles. All configurations feature a convenient shoulder strap, a full flat-bottom edge and suction cups. Lower costs without sacrificing safety with an alternate design featuring 32-inch wide FingerLocking ECONO panels (available individually).
