FOR IMMEDIATE RELEASE

Adams Elevator adds new features to online store

Customer experience improves with better navigation, additional search capability for finding parts and easier online ordering

Chicago, IL – Adams Elevator recently added new features to its online store to improve the overall customer experience. One major change is the addition of the 330A catalog. Customers can now easily find and purchase the most commonly used service and repair parts for the 330A elevator. With approximately 15,000 installed, the 330A is a hugely popular hydraulic elevator in the United States and Canada.

In addition to the new specialty 330A catalog, improvements have been made to the existing full-line catalog. Adams added more than 3,700 images, meaning 75 percent of the 20,000 catalog parts now have corresponding images.

There is also an improved users' account navigation feature. It's now easier than ever for customers to check their order's delivery status—including tracking numbers—and view their account status online with the click of a mouse.

Finally, Adams added Spanish video FAQs, to complement the original video FAQs. These videos teach customers how to take advantage of all the features available on the e-catalog and e-commerce site.

As always, customers will receive a two percent discount on all online orders. This program has been a huge success with Adams customers and will continue until further notice.

To explore the new and improved site, visit Shop.AdamsElevator.com.
